Please note: Codes 43, 44, and 45 are critical codes and if they are shown, the Stop Engine Light will come on which causes the engine protections to engage and your engine may shut down. All other codes will cause the Check Engine Light to come on which will not engage the engine protections and will allow the engine to continue running.

What's the Code? | Trip Sheet Central

Follow these guidelines to check for fault codes on any Freightliner Cascadia with a DD15 engine. Key on, Engine off. Placed unit in neutral. Locate the square black button on the odometer screen. Using the black button cycle through the options displayed on the odometer reading until it reads "diagnose".
