The IBEC will pull it's power from the RX batteries. Put it on the gear channel and you will be able to turn the ignition on/off with the gear switch. This eliminates a ignition battery which makes charging simpler, reduces weight and gives you a engine kill for safety. The ignition uses very little current so don't worry about that.

ENGINE HY25CC/26CC/30CC

A vehicle requires proper fuel delivery to its engine to function properly. There are at least 4 components that make up a vehicle's fuel system which include the fuel pump, fuel pressure sensor, the fuel rail and the ECU which monitors everything. The fuel pump receives the fuel from the fuel tank and throws it into the fuel rail which transfers the liquid into the cylinders using the knowledge of the fuel pressure sensors.
