Why Globalization Works Martin Wolf

In this book a highly distinguished international economist scrupulously explains how globalization works as a concept and how it operates in reality. Martin Wolf confronts the charges against globalization, delivers a devastating critique of each, and offers a realistic scenario for economic internationalism in the future.

Why Globalization Works | Yale University Press

Why Globalization Works is a great introductory book on the topic. It is well structured, well argued, covers all the bases and answers many of the critics' questions. Wolf has compiled an impressive array of data to support his views and the critics would need to counter with equally compelling evidence.
